Professional Summary

Frontend Developer with 3+ years of experience building responsive, fast, and user-friendly web and mobile applications. Skilled in modern frontend frameworks such as React.js, React Native, and Tailwind CSS, with strong knowledge of JavaScript, TypeScript, and UI/UX principles. Experienced in API integrations, performance optimization, and cross-platform development. Passionate about clean code, modern design systems, and delivering great user experiences. Comfortable working remotely and collaborating across international teams.

Technical Skills

- **Languages & Tools:** JavaScript, TypeScript, HTML5, CSS3, SCSS
- **Frameworks & Libraries:** React.js, React Native, React Context, React Router, Tailwind CSS, Bootstrap
- **APIs & Integrations:** REST APIs, Axios
- **Others:** Web3, dApps, Mini App, Git and git CLI, Figma Accessibility, Mobile-first Design

---

Core Responsibilities

- Built and optimized cross-industry web applications with a focus on mobile-first responsive UIs and scalable component architecture.
- Revamped outdated web platforms by introducing reusable components, modern animations, and improved page performance.
- Collaborated closely with backend, blockchain, and product teams to ensure pixel-perfect integration and smooth data flow.
- Integrated third-party APIs including blockchain wallets, Telegram SDKs, and medical data platforms.
- Implemented best practices for accessibility, SEO, and performance audits across platforms.

Work Experience

TopAirdrop
Web3, Solana Airdrop project
Frontend Developer
June 2025

- Integrated Phantom wallet and real-time contract events.
- Multi layout website with protected route Integration.
- Dashboard and Airdrop withdrawal
- Responsive mobile and web UI/UX usability.
- Task Performing and the likes
- Collaborated closely with product and design teams to deliver scalable features.

AFRIBIE

Telegram (web-based) Mini App

Frontend Developer

June 2025

- Build optimized mobile-first micro-apps (Telegram Mini Apps) with fast load times and minimal JS bundle.
- Handle game logic, lightweight animations, and instant user interactions.
- Reusable components and lazy-loaded modules.
- Ensure apps work seamlessly in embedded browsers.
- Integrated third-party APIs
- Collaborated closely with backend and UI designer

QAAGAI

Web3 and AI Automated website

Frontend Developer

APRIL 2025

- Integrated MetaMask wallet and real-time contract events.
- Integrated third-party APIs including Ai web socket.
- Redesigned mobile and web apps to enhance UI/UX and improve usability.
- Integrated multi-language support for broader market reach.
- Collaborated closely with product and design teams to deliver scalable features.

Thefunnelsphere

Business and Branding

Frontend Developer

March 2024

- Built responsive website pages using HTML, Bootstrap, and JavaScript.
- Connected frontend forms to PHP server endpoints.
- Improved performance and accessibility across multiple devices.

KPA Revamp

Business and Branding

Frontend Developer

December 2024

- Built and maintained React.js components with Tailwind.
- Worked on state management and API integration using Axios.
- Collaborated with cross-functional teams to improve user engagement by 20%

OIO

Business and Branding

Frontend Developer

June 2025

- Converted Figma designs into responsive UIs using React and Tailwind CSS.
- Managed application state using Context API and Redux.
- Connected frontend to backend APIs and handled dynamic content display.

Devlight

My Porfolio

Frontend Developer

October 2024

- Converted Figma designs into responsive UIs using React and Tailwind CSS.
- Managed application state using Context API and Redux.
- Connected frontend to backend APIs and handled dynamic content display.

Education

Bachelor of Technology (B.Tech) – Physics and Electronics

Federal University of Technology, Akure (FUTA)
2017 – 2023

- Graduated with Second Class Upper (2:1)

Certifications

- **Responsive Web Design** – *freeCodeCamp*
  Issued February 2025
